War Against Frost Tonight

JUMBUS, May 1.—Warning
of probable frost; Ohio to-
morrow is being issued today
by the weather bureau. Al-
tho the weather bureau offi-
cials are inclined to the belief
that generally will be light,
pointed out that, in exposed
along the river valleys in
Ohio and central Ohio, there
be severe, or killing, frost,
the mercury approximately
freezing point. In the less
d places, it was stated,
temperature tonight may
be between 35 and 40 degrees.

FEAR FOR SAFETY OF U. S. WORLD AVIATORS' CHIEF

Major Martin, Commanding Army Flyers' Squad-
ron, Vanishes After Leaving Chignik, Alaska,
for Dutch Harbor

CORDOVA, Alaska, May 1.—A
far flung search was started in
Alaskan waters today for Major
Frederick L. Martin, and his
round the world flag plane
Seattle. The commander of the
American army flyers has not
been heard from since he hopped
off from Chignik at 11:10 a. m.
(Alaskan time) Wednesday in an
effort to reach Dutch Harbor
where his three flying companions
have been awaiting his arrival for
two weeks.

Major Martin took off under
most unfavorable circumstances
and the weather conditions today
were unimproved. Gales with
heavy snow fall were reported
along his route to Dutch Harbor.
News that he was missing was
broadcast by radio and the coast
guard cutter Haida at Dutch Har-
bor ordered to proceed along the
route taken by the flyer in an ef-
fort to locate him.

Alaskan fishing vessels were
said to be on the lookout for the
big plane and all of the meagre
means of communication in the
isolated section were brought in-
to use in an effort to secure some
trace of him.

Because of the long delay oc-
casioned by his being marooned
at Kanatka following a forced
landing in Portage Bay and fur-
ther delays at Chignik due to bad
weather, Major Martin deter-
mined yesterday to make the attempt
to reach Dutch Harbor in the face
of adverse weather conditions.

His hop off scheduled for early
morning was delayed until 11:10
in the hopes of improved flying
weather. Decision was finally
made to take off. Soon after the
start was made a blizzard de-
veloped.

Belief was expressed here that
Major Martin had not been able
to make any great distance from
Chignik. It was considered pos-
sible that he found flying condi-
tions so bad that he sought a safe
shelter where he will await the
arrival of a coast cutter or take
off again as soon as weather con-
ditions permit.

Experienced Alaskan navigators
were apprehensive for the safety
of the plane because of their
knowledge of the violence some-
times attained by gales along
Unimak island and in the Aleutian
peninsula waters.

Major Martin is accompanied by
his mechanic, Sergeant Hard-
ing.

Interlap in Japan
WASHINGTON, May 1.—The
globe circling army flyers rep-
resenting the United States, En-
gland and France are all three ex-
pected to meet in Tokyo, Japan,
according to calculations made to-
day by the war department. Avia-
tion experts who have been watch-
ing closely the performances of
the three nations representatives.
The probable date of the meeting
is put at May 10 or 11, barring
serious mishaps or long stretches
of bad weather.

The British flyer, Major Stuart
MacLaren, is today in Calcutta,
India, flying around the world in
the opposite direction from the
Americans and the French ace,
Lieut. Pelletier D'Oisy, who left
Paris after MacLaren was half way
to Asia, on the day's jump from
Calcutta in his effort to beat Mac-
Laren to Tokyo.

The Americans have seven
jumps from Dutch Harbor, Alaska
where they were still halted to-
day waiting on Major Frederick
L. Martin, their chief; the Brit-
ton has the same number of fly-
ing days and the Frenchman
eight days of flying to make
Tokyo.

100 DEAD, 500 INJURED BY TORNADOES

Seven Southern States
Ravaged by Storm
That Does \$10,000,000
Damage; Death Toll
Growing

ATLANTA, Ga., May 1.—
The death toll of the cyclone
which swept across the south
is as follows:

South Carolina, 60; Geor-
gia, 13; Alabama, 12; North
Carolina, 3.

Arkansas, Oklahoma and
Louisiana one each. This does
not take into account more
than a dozen persons who
have been reported as miss-
ing.

ATLANTA, Ga., May 1.—A
path of death and destruction lit-
tered with 100 lifeless forms,
more than 500 injured, and dam-
aged property conservatively es-
timated at \$10,000,000, today
stretched for one thousand miles
across the southern states, repre-
senting one of the most disastrous storms
in the history of the southern
states.

Many of the injured are at the
point of death, while more than
a dozen are reported as missing
in the six states which were swept
by the cyclonic disturbances.

Indications were that the casu-
alty list will be swelled consid-
erably before nightfall.

69 Dead in S. C.

The cyclone which first was re-
ported at Texarkana, Tuesday
night, became more severe as it
travelled eastward and claimed
its heaviest toll near the end of
its destructive journey in South
Carolina, where reports have it
that sixty-nine persons were killed.
Spent in its fury, the storm
then touched a section near Dur-
ham, N. C., where three lost their
lives and several others were ex-
pected to die.

Georgia and Alabama suffered
most next to South Carolina, this
being the case in Georgia, while
the person was killed in Arkan-
sas, one in Louisiana and still an-
other in Oklahoma.

As demoralized telegraphic
communications were restored to-
day additional accounts of the
storm's ravages were received. It
was believed at southern head-
quarters of the Red Cross corps at
Atlanta that a complete casualty
list and a corrected estimate of
the storm's damage will not be
available for several days.

Red Cross emergency workers
have been rushed to those points
where suffering was said to be
the worst.

Several little towns in Georgia,
Alabama and South Carolina were
virtually in ruins today while
many rural sections were com-
pletely annihilated. Most of the
victims were residents of small
communities.

Although an edge of the cyclone
swept through Atlanta, causing
heavy property loss, comparative-
ly small damage was reported
from large southern cities. A
small community near Macon was
destroyed at the cost of four lives
and many injured but the city
proper was not struck, as was the
case of Spartanburg, S. C., and
Durham, N. C.

Many Communities Hit

The largest number of killed at
one place was Sumter, S. C.
The storm struck a farming set-
tlement there, instantly killing
12 persons and left a path of
wreckage for miles. Bodies of the
12 men, along with more than a
dozen injured, were removed
from a huge pile of debris after
hours of work by rescuers. An-
other section near Anderson, S.
C., suffered the loss of nine lives.
Forty homes in Anderson are
complete wrecks today, while
heavy property damage was felt
over the entire city.

The body of Gus Patrick, post-
master at Washington, Ga., was
hurled more than a quarter of
a mile from where he was picked
up by the wind. Many miraculous
escapes are reported while freak
stories of the storm came in from
all quarters.

At one point near Opelika, Ala.,
the tornado swept down into a
field of cattle, scattering their
bodies for a mile. Today books
and other small household ar-
ticles were picked up at some
places and identified as belongings
to families living miles away.

Mississippi was the only state
in the storm's path that did not
suffer heavy damage after leaving
Arkansas was near Montgomery,
Ala., and from then on to Dur-
ham, N. C., the high winds drop-
ped down intermittently spelling
ruin and death in almost every
section.

Oldest War Twins

KEENE, N. H., May 1.—The
honors of having the oldest twins
who served in the Civil War is
the claim of this city.

They are Wilbur F. and Wil-
liam B. Chandler, who recently
observed their eighty-fourth birth-
day anniversary. The are not,
however, the oldest twins in the
country as Andrew H. and Aaron
B. Woodbury, of Winchester, pas-
sed their eighty-fifth anniversary
December 22, 1923.

She is tired of being a sheik's wife, she says. Mrs. Rosie Minko-
vich has filed suit for a divorce in Chicago, charging that her husband,

she has found life unbearable. Minkovich denies the allegations.

DAVIS SEES INDUSTRY PEACEFUL ON MAY DAY

U. S. Labor Secretary Reports Year's Strides Have
Smoothed Relationship Between Employers and
Men

BY JAMES J. DAVIS,
Secretary of Labor.
(Copyright 1924 by International
News Service.)

WASHINGTON, May 1.—For
some time past it has been appar-
ent that the industrial horizon of
the world is slowly brightening,
but our own people today are
prone to be able to acclaim that
America is "Queen of the May."
In practically all lines in the
United States "May Day" dawned
upon a peaceful industrial rela-
tionship existing between employ-
er and employee.

The American workman has
cause to be happy and contented.
Building tradesmen in all our
principal cities are steadily em-
ployed at good wages. Petty
grievances are being ironed out
and in many instances wage agree-
ments have been signed for pe-
riods longer than a year. These in-
terests are working out satisfac-
tory contracts and a great build-
ing program is going forward
throughout the country.

Coal Output Better.
Coal production promises to im-
prove from month to month. A
three-year wage agreement recent-
ly signed eliminates the possibil-
ity of any serious strikes in the
soft fields for that period and the
anthracite agreement assures in
that branch of the industry for
nearly two years.

Practically all of the railway
differences have been settled and
today there is only an occasional
road on which the shopcraft strike
of 1922 has not been terminated.
Here and there may be found
slight industrial differences be-
tween employers and employees but
none of these is of more than
local significance. As secretary of
labor it is a great satisfaction to
me to be able to say to the hun-
dred and ten million persons I
serve that so far as industrial re-
lationships are concerned the coun-
try was never in better shape.

During the month of March the
conciliation service of this depart-
ment promptly and without pub-
lic notice was successful in set-
tling forty-five trade disputes aris-
ing in fifteen different states and
involving over 40,000 workers. It
is a testimonial on the level head-
edness of both men and manage-
ment in industry. Reports coming
to me from many sources from all
parts of the country indicate no
serious controversies, nor threat-
ened trouble and so May Day 1924
promises to be as quiet and peace-
ful industrially as any other day
in any other month of the year.

Slight Disturbances
May Day, the recognized day for
Socialistic demonstrations, passed
comparatively quietly everywhere.
A bomb explosion took place in
the Paris branch of the Italian Fas-
cist, and a woman was injured.
A few workers in Paris observ-
ed the day with a temporary
strike.

Mounted police in Berlin broke
up an attempted Communist meet-
ing.
In Madrid special police pre-
cautions were taken to agitators
from causing strikes.

Special police precautions were
taken in New York with guards

PRODUCERS OF MILK TO FORM ORGANIZATION

Northern Ohio Non-Pool-
ers Association Plan-
ned With Securing of
Better Prices by New
County Society

A new organization of the milk
producers of the county who do
not belong to the Ohio Farmers
Association, has been formed,
and an independent non-poolers
association for the Cleveland dis-
trict started. Although the name
has not been definitely decided on
it will probably be called the
Northern Ohio Non-Poolers As-
sociation.

A large number were present at
the meeting, among them H. W.
Ingersoll, former president of the
Ohio Farmers Co-operative Milk
Co., who gave counsel and advice.
Great enthusiasm was expressed
by those present, and in a number
of sections more than fifty per
cent. of the producers signified
their intention of joining.

A temporary sales committee
was appointed, and they have al-
ready reported that they have
sold the members milk at more
than 25c per 100 lbs. above the
poolers price. Other meetings are
to follow and the new organiza-
tion promises to be a big success
in the opinion of those interested.

ELYRIAN, HEAD OF OFFICIALS, RESIGNS POST

Principal R. P. Vaughn, of the
high school has sent in his resig-
nation as supervisor of officials of
the Little Big Seven league, and
a meeting is to be held in Nor-
walk tomorrow to choose his suc-
cessor. Mr. Vaughn states that
he has held the position for some
time, and that he felt there was
some dissatisfaction, possibly ow-
ing to the Houseman incident
last year, so he did not care to
continue in the office and decided
to resign and clear the atmos-
phere.

AVOWS HE DIDN'T WANT TO KILL WIFE HE FED ON GERMS

Clarence O. Baring and his wife.

Clarence O. Baring is being held
without bail in Westchester county,
New York, after indictment by a
grand jury which heard one of
the weirdest stories ever told. Baring
admitted he administered arsenic
and the germs of typhoid, pneu-
monia, influenza and diphtheria to
his wife, Mrs. Sarah Baring, but
denied murderous intentions. He
explained the dosing by saying that
he wanted her to become ill so he
could persuade her to go west for
her health. Mrs. Baring recently
inherited \$200,000.

Teresa Becker, indicted at the
September term of court on a
charge of embezzling \$6000 from
the Canfield Oil Co., where she
was bookkeeper, came before
Judge W. B. Thompson this morn-
ing and changed her plea to that
of not guilty, to one of guilty.

Immediate application was
made for her parole, and a large
number of men and women,
friends of hers, were on hand to
testify in her behalf. All of them
testified to her previous good
character, and said that in their
opinion the ends of justice would
not be subserved by her parole.
There were no witnesses on the
part of the state to object to the
parole, but attorney F. A. Stetson,
representing the bonding com-
pany, objected for his clients,
stating that they felt that some
punishment should be meted out
to prevent future occurrences of
like character.

Judge Thompson first sentenced
Miss Becker to the woman's re-
formatory at Marysville, and then
paroled her stating he did so be-
cause there were no witnesses to
oppose the parole, and he felt jus-
tified in so doing.

SECOND LIQUOR VIOLATOR IS FINED \$500

Joe Baro Readily Pays Up

Joe Mikerville, was found guilty
in police court of transporting
liquor, and was fined \$500 and
costs by Mayor Hinkson. He was
arrested by the police in the
alley south West Broad street, and
a bottle of liquor was found in
his car. He was locked up in the
city jail.

Joe Barro Western Heights,
changed his lead of not trying to
the illegal possession of liquor,
and was fined \$500 and costs.
He paid up.

Stanley Zexorek, of Lorain,
appeared before Judge Thompson
this morning to answer to an in-
dictment charging him with ille-
gal possession of liquor. He en-
tered a plea of guilty and was
fined \$100 and costs which he paid.

ARREST THREE DETROIT BOYS IN AUTO THEFT

Three boys in their town were
jailed yesterday afternoon, after
Sheriff Underhill and Detective
Zarnke, of the city police force,
had arrested them while they
were walking in the road near
Penfield Junction.

They gave their names as
Ralph Copone, 15, and his brother
Mario Copone, 15, of 1015
Brady street and Nateoalio Pal-
ombo, of 1029 Brady street, De-
troit. The boys are Italians, and
are typical waifs of the big city.

They drove up to Will Norton's
home near where they were ar-
rested, when an Essex car they
were driving ran short of gaso-
line. Norton saw them attempting
to steal the license from his ma-
chine, and called up the police.
When arrested one of them said
they had stole the machine, which
had a Michigan number 44, from
the down town section in Cleve-
land that morning. He said they
left Detroit last Monday, and
beat their way to Cleveland. They
stole the machine so as to escape
a ride home. On calling up Cleve-
land it was found the car had
been reported as being stolen, and
Cleveland authorities came after
the car and the boys this morn-
ing.

CONFESSES TO KILLING MAN

AKRON, O., May 1.—May Day
for Lucille Johnson, 21, meant
her probable start on the road, as
a life term in the penitentiary.
This morning she confessed to
having stabbed James Shepley to
death on the street last night.

MILLS FINKED \$200
W. B. Mills, of Toledo, was
re-arrested by Sheriff Underhill,
charged him with reckless driv-
ing of his automobile. Last night
he was arraigned before Judge
George, who fined \$100 and costs,
and then suspended the case.

Firpo Sure He Has Retired From Ring; Money Is No Object

NEW YORK, May 1.—On Al-
fred Mayer, confidant and ad-
viser of Luis Firpo, today added his
voice to the chorus pro-
claiming the caveman's perma-
nent retirement from affairs of
the fist and gave the following as
his reason for so believing:

That Firpo, as far as spending
money is concerned, is still the
\$10 a week store attendant; that
Firpo has an income of \$300 a
week for life and therefore thinks
this constitutes about all the
money there is in the world.

Mayer, who is the New York
representative of a string of
South American newspapers, added
that Firpo is averse to fight-
ing again in America because he
has been led to believe his money
will be attached by those who
claim to have the human heart-
rug in the belt. Grudging admis-
sion was also made that Firpo
is a broad of promise suit, who
pers of which have been waited
about Broadway.

"It is my opinion that Firpo
never will return to America,"
said Mayer. "If he does come
back, it will not be for the money
involved although you may laugh
at that statement. Firpo will re-
turn to the ring only as the re-
sult of a national demand, such
as influenced Jeffries to try again
when Jack Johnson was cham-
pion."

"No one up here really knows
Luis Firpo. He is a man of sim-
ple tastes who will never need a
title of the half million he has to
his credit. As far as the posses-
sion of money is concerned, Firpo

still is the \$10 a week clerk. At
the same time he has his funds
invested in first mortgage real
estate that will bring him in six
thousand pesos a week for life.
That means \$500 a week, in Am-
erican money and it is nothing
short of a great fortune to one of
Firpo's simple tastes.

"The \$200,000 that Tex Rick-
ard has offered him for a White
Fighting champion is nothing. To a
man such as this, that bid of Rickard's
is like offering beer to a brewer.
I mark my words: If Firpo comes
back it will be because his coun-
trymen force it on him."

That the Argentinian is contin-
uing to backfire on any attempt
to hasten him hither was indicat-
ed by cabled dispatches received
here late yesterday. These stated
that before starting on an auto-
mobile tour of Argentina, Firpo
had sent cables to all interested
parties here, denying any con-
nection with Guillermo Widmer, who
is on his way to this country.

Widmer was Firpo's secretary
prior to and including the Demp-
sey fiasco.

Just what caused the Cavem-
an's concern over his former
secretary's proposed activities
here, if any was not made clear
but his cables indicated that he
feared dirty work at the cross-
roads. These were addressed to
Rickard, various other promoters,
lawyers for promoters and per-
sonal friends here and stated in
no uncertain terms that he would
not recognize any deal this man
might make in this country on
his behalf.

BOXING NEWS

Week's boxing developments were featured by Firpo's decision
to return to ring. Like impoverished Congressmen, Luis does mental
handspring every time he hears the Buffalo on a nickel snorting.

Firpo is convincing refutation to theory that they never come
back. He comes back whenever trade winds carry scented aroma of
crisp Federal Reserve notes to South American shores.

Wild Bull is one fighter that never runs down an offer. Only
offer he ever refused was bid of \$500,000—all in \$100 Confederate
bills.

Signing contracts is not matter of temperament with the Senor
of the Plains. Like Mexican soldiers, he will fight whenever he gets
paid for it.

Only extravagant habit Firpo has is getting manicures. With
fingernails bobbed he can count gate receipts three times as fast.

When Luis visits zoo eagles run to cover. They are affectionate
birds, but dislike excessive squeezing.

When Wild Bull takes out citizenship papers he should have
easy time passing history examination. He has looked at pictures
of U. S. President on greenbacks so often that they seem like family
album.

A Live Dud

Is Mr. Lee. Scintillating Red Sox Rookie

A "Dud" in military parlance is
a shell with pacifist tendencies so
pronounced that it refuses to say
"boom" when fired.

Generally speaking a dud, then,
is anything that flunks when it is
expected to flash brilliantly
across the horizon.

When "Dud" Lee went up to
the Red Sox from the Texas Leag-
ue last winter, Boston fans in
particular and the fan flock in
general wondered whether he'd
prove a "dud."

He has—such a live one for
the Browns that he is still
playing the shortstop and will
continue for some time despite
the fact that he isn't hitting much
over the size of his hat today.

The other day someone asked
Lee Fohl, Red Sox pilot, what he
thought of Lee's playing.

When Fohl says three words
about a ball player it's a sermon.
When he says a full sentence his
friends feel his pulse. But when
the older Lee was asked about the
younger he stepped right up and
sez, sez he: "That boy's the best
shortstop brought up from the
minors since I began looking
them over."

Goes After Everything
Lee's greatest asset, as I see
it, is his ability to cover ground
to the right or left with speed and
confidence. He has the necessary
faculty of whipping the ball to
the base from any position with-
out loss of motion.

He plays ground balls as a cat
plays with a ball of yarn. The
average tendency of the newcom-
er in the big show is to let the
ball play him.

It has been Lee's fielding that
has carried him to the big show.
His hitting, with the exception of
one year when he got real "awa-
gray," wasn't much. In fact the
Browns, who once had a string on
him, sold him to Tulsa, in the
Western Circuit, a year ago this
spring for that reason.

After he played sensational
ball day in and day out. Over a
stretch of 161 games, in which
he accepted 1662 fielding chances,
he made but 42 errors.

His work is starting or acting
as pivot man in double plays was
little short of marvelous.

One Bit of Fielding
Most youngsters go good in the
spring so it takes an unusually
brilliant piece of work to draw
weariness from the vets on the
team but "Dud" won the admira-
tion of Fohl and his aides in a
their bout here today. Carpenter
held the upper hand at all times
and there was seldom a doubt of
his ultimate victory.

The dual meet of Leland Stan-
ford, Jr., University and the Uni-
versity of California on April 25
will mark the formal dedication
of the new Stanford track, which
is said to be the fastest on the
coast.

Many high school athletes of
Texas will display their wares in
an interschool track and field
meet to be held in Dallas on April
25 under the auspices of Southern
Methodist University.

Kennel Club: Central States

Peoria, Ill.

GOLF: Annual invitation tour-
nament of Linwood C. C., at At-
lantic City.

sin Olympic tryouts, at North-
western University.

pentier, foot of the French boule-
vards, scored a knockout over

weight in the second round of

"IRON MAN" MCGINNITY SETTLES DOWN TO "REAL LABOR" IN ILLINOIS FACTORY

Joe McGinnity as he appears at the mill these days and as diamond
fans of recent years knew him.

"When a man gets to be 52 it's time he quit monkeying around
and settled down to work," says "Iron Man" Joe McGinnity. And so,
after pitching baseball for something like 35 years, he has quit the
diamond and donned overalls to work as a millwright in a Decatur, Ill.,
factory. "And I get as much of a thrill teaching youngsters the game
here as I did learning them the fine points of pitching," he says.

BLOOMER GIRLS READY FOR SEASON

The Elyria Bloomer Girls, after
an absence of a year on the diam-
ond, have again organized for the
coming season. The fair sex in-
tend to have a stronger lineup
than ever before and have games
booked with the Knits of Cleve-
land and the Warren Elks. Prac-
tice will be held in the near fu-
ture at the Hamilton School
grounds and any girl wishing a
trout should call Marguerite at
38808 after 5 p. m.

BATTLING SIKI PENNILESS IN NEW YORK

NEW YORK, May 1.—Batling
Siki, who formerly held the
world's light heavyweight cham-
pionship as the result of his
knockout of Carpenter has re-
turned to this country penniless
it was revealed today. Siki ar-
rived from Havana on Monday in
the steerage of the liner Siboney
and after being held at Ellis Island
was about to be deported when
his manager, Bob Levy, came for-
ward and rescued him. The Sen-
galese after declaring that he
would proceed to Louisville, Ky.,
for a bout he claims he has sched-
uled there on May 9, was admit-
ted to the country for a period of
six months.

LAST NIGHT'S FIGHTS

AT NEW YORK—Benny Val-
gar, New York, won a decision
over Al Delmont, Newark, N. J.,
ten rounds; Pete August, Bridge-
port, Conn., won decision over
Herb Broodie, Brooklyn, ten
rounds.

AT McKEESPORT, Pa.—Dicky
Conlie, Altoona, Pa., outpointed
Johnny Horvath, Mansfield, Ohio,
ten rounds.

TAGGING THE BASES

After socking a triple,
Rabbit Maranville engaged in
a steal of home with the
run that gave the Pirates a 2
to 1 decision over the Cubs
in the fourteen.

TY BUILT BETTER THAN HE KNEW WHEN HE SIGNED EARL WHITEHILL

Earl Whitehill and one of the box scores he helped produce.

When Ty Cobb grabbed Earl Whitehill from Birmingham last fall
the Tiger pilot had the word of his scouts that he was getting a real
pitcher. When Whitehill won three games for the Tigers before the
season ended, Cobb figured the scouts had the right dope. Now Earl is
going great guns. His pitching has been a high light in the work of
the Tigers to date.

Dodgers by driving in the win-
ning runs with a single in the
eleventh, the Braves going down
by a score of 6 to 4.

Every game in the Amer-
ican League was washed
overboard by rain as were
those scheduled between the
Phils and Giants and Cardin-
als and Reds in the Nation-
al League.

If you believed us when we said that the Selz \$Six
shoe is the best value we've seen in years—

That it is sturdily built of all leather, and has metro-
politan distinction combined with long wear —

You would come right in and buy a pair.

Of course, you know us, and our reputation, and you
do believe us. But if you'll come in, we'll prove what
we say.

THE DAWES REPORT

The Dawes report on the state of Europe and suggestions as to how order may be evolved out of the chaos of the present political and economic situation is at last squarely before us. It will undoubtedly be the last effort to straighten out the tangle growing out of the Treaty of Versailles.

The Commission was confined within very definite prescribed limits. This was somewhat of a handicap to start with, and to some extent narrows the prospects of an ultimate amicable solution. The total of Germany's financial obligations fixed by the treaty was not to be changed by the Commission. While a deferring of payments might be recommended for a number of years, the payments in kind were to be continued without interruption. France would not consider any recommendations which would shut off the stream of coal and other materials which she needed in her industries. Also, some security must be given to France that Germany would meet her obligations before the economic control should be withdrawn from the Ruhr.

The Dawes plan calls for the annual payment by Germany of \$250,000,000, rising in five years to approximately \$625,000,000. This represents 6 1/4% on \$10,000,000,000. 5% of this is for interest, and 1 1/4% is for a sinking fund looking toward the ultimate extinction of the whole debt. In the early years this amount is to be paid by German bonds sold abroad and by preferred stock in a company which is to own all the German railroads. After two years, it is believed that the German income will be sufficient to meet these payments. As for security to meet these payments, the Commission suggests certain revenues which shall be directly payable to the French government, like the revenues on tobacco, sugar, alcohol, etc. Further security is given under certain conditions by giving control of the new German bank to the creditor governments, and also the German railroads. Further, \$75,000,000 of each annuity is to be secured by mortgages on private German industrial concerns.

The Commission, in return for these provisions, requests the French and Belgian governments to give up their economic control of the Ruhr, since it will be impossible for Germany to meet the conditions imposed by the Commission unless her economic unity is restored. There is no request for military evacuation.

A very scientific plan has been evolved for Germany to pay these obligations in her own money rather than in the money of creditor nations. These payments are to be perpetual, for the amount can never liquidate the debt fixed by the treaty. It was in this way only that the Commission could overcome the restriction put upon it not to change the total fixed by that treaty. At last we have a scheme that is workable, and it should be said to the credit of our government that it has made the most practical suggestion made since the armistice for the clearing up of the European chaos.

PROGRESS IN JAMESTOWN, N. Y.

Mayor Samuel A. Carlson of Jamestown, N. Y., has the distinction of having been elected to office eight times in succession. For sixteen years, he has served the city of Jamestown, which has a population of about 39,000. Furthermore, Mayor Carlson is a positive mayor. He has kept himself busy serving the city and not keeping a "weather" eye out for votes to re-elect him, as one might think he would.

He has sought, since his first election in 1908, to prove that municipal government in Jamestown is a pronounced success. First, he brought about municipal ownership of the water and electric light plants. Then followed a public market, city paving, a sewage building plant and a public sanitarium. All have proved paying investments. A large part of the success of the whole program is due to the fact that municipal ownership has come about gradually. Each new enterprise has been established on a sound financial, pay-for-itself basis before anything new has been undertaken.

The city charter divides the government of the city into three divisions—the legislative, humanitarian and business. The legislative authority is exercised by a city council; the humanitarian, by a board of public welfare; the business enterprise, by a board of public utilities. Each of these departments enlist the co-operation of the citizens of Jamestown who are interested in a particular branch of civic welfare.

Mayor Carlson is now at work upon a plan to sell the city its milk. He has sought to run the city of Jamestown as a business should be run, and just as a manufacturing business would be managed so as to bring the largest returns to the stockholders, so he has managed the city in the interest of its citizens. Municipal water, electricity, sewage disposal, etc., are all cheaper to the people than the service and commodity was before it was owned or operated by the city.

THE WAY OF THE WORLD

By GROVE PATTERSON

What wise people we should be if we had sense enough and self-control enough to keep from saying in "tantum"—the thing that we are sure to be sorry that we said. Men like to forecast. They like to forecast the state of business next month. They like to forecast their own plans. They like to forecast their successes, and if necessary, their failures. They boast of their power to forecast. But the greater power of forecast that man could possibly have would be the power to forecast his own opinion tomorrow. Before this very day is done you may be impatient, out of sorts, irritated, angry. And you may say things that you do not mean, things that you know are not true. If you could only forecast your own better judgment of your own unwise speech or act.

The trouble with most of us is that we do not think things through. We speak before we have thought the thing more than half thru. If we had thought it ALL THE WAY, we should have spoken differently. What a wonderful thing is the personal power to forecast!

The great heat of the sun does not affect all objects alike. The sunshine falls on clay and bakes it hard. It makes it like granite. The sunshine falls on paint and softens it and makes it run. It falls on snow and the snow melts away. The power of the sun softens one thing, it hardens another. So with a great message. So with an inspiring thought. One man will hear it and be uplifted and helped and softened in his spirit. Another will hear and be numb. One man will remain hard under kindly influences. Another will be splendidly changed.

The difference is not in the message. The difference is in the material upon which the message falls. You and you alone are responsible for your RECEPTIVITY.

The dependability of the seasons is a comfort to man. When the grass comes green again in the spring, and the flowers bloom at the right time and trees show buds and leaves again, we have the same old feeling that nature can be depended on and that all is well. We have the same feeling about baseball. The world goes

KOMICAL TELEGRAMS

By JIM ARMITAGE, Himself

NO USE TALKING A FELLOW goes have to step out occasionally. So Lee Hovis blew himself for a couple of tickets to see The Greenwich Village Follies.

COURSE HE COULD HAVE stayed at home and seen Jackie Coogan, but he longed for the real thing.

WHEN HE GETS TO STRUTTING in that Cadillac, can they stop him? "Absolutely" Mister Gallagher, positively Mister Shean.

FILLED 'ER ALL UP WITH gas, washed the last dish in the leannery, and he was on his way. NOW HE SHOULD HAVE started earlier but someone ordered a ham sandwich and he was a little late.

FINALLY GOT AWAY ALL right and things went fine till they arrived at Ridgeville and it would have been all right then, if he hadn't had a blow out.

BUT LEE'S ONE OF THOSE genial cusses and in an hour or so he was a little the worse for wear—but got going again.

NOW IT HAS NOT BEEN said that Missus Hovis made any unkind remarks while he was changing the tire, your imagination can take care of that.

COURSE HE KNEW HE could make up the time he'd lost and he was going along fine—enter a traffic cop.

AND AFTER ARGUING A while he was on his way with one of those cute little notices to "appear the next morning at 10."

HE LOST A LOT OF TIME and was beginning to lose his sunny disposition.

HE HAD THOSE THEATRE tickets in his pockets. They cost him \$7.79 and he was determined not to miss the show. Didn't have time to go to a garage so he parked in front of the theatre.

THE JUDGE WILL LET HIM going to court. Friday how much that is going to cost.

HE MISSED THE FIRST ACT entirely. Gallagher was asking Shean that one about the little machines: "When a Chevrolet passes a Ford, what time is it, Mister Shean?" "Tin after tin," Mister Gallagher.

AND LEE SPENT SEVEN SEVENTY to listen to them kind, course he's not blind and the ladies in the front row were not hard to look at.

HE TRIED TO LAUGH. DID the best he could and started home. Everything else was closed up.

HE NO DOUBT ENJOYED the dinner after the theatre. I know he should, I used to eat at his restaurant.

TIMELY VIEWS ON WORLD TOPICS

"WAVE OF CHAUVINISM PASSING OVER GERMANY" SAYS WOMAN LEADER

"Nobody in that Germany believes the Kaiser or any member of his family can come back or that the monarchy can be re-established. We admit that there is a wave of chauvinism passing over the country, especially in Bavaria, and that its objective is to give more power to the parties of the Right. But the thought of another monarchial regime would rouse the masses of the German people when it became a matter of action and any such movement would be more or less crushed in a fairly short time."

So declared Lida Gustava Heymann, German vice-president of the Woman's International League for Peace and Freedom, and delegate at the league's conference in Washington, in a recent interview. Fraulein Heymann, co-organized with Dr. Anita Augspurg, who is also in the United States of the modern German suffrage movement, formerly member of the Bavarian Assembly and social settlement pioneer among women in Germany, declared that the movement for peace and reconciliation in Germany had held its own during the recent reaction and had been strengthened immensely by the good impression made in Germany by the Dawes report. She explained:

"The Friedensverein der Studenten (the students' peace societies) are active in every university and actively are combating the Hitler organization, the Nationaler Arbeiter, and similar chauvinist groups in Germany. It must be admitted for the moment that Herr Hitler has turned the heads of many German youth, and his Hakenkreuz, which you call the Swastika, has acquired the false glamour of national symbolism."

"It is more like the Ku Klux Klan in the United States than a really national force, and Herr Hitler in Bavaria, where it is most powerful, is trying to make it a lasting force in German life. It has made Munich, once the most disagreeable city in the Republic for a time but it is in an emotional, not a permanent movement. Herr Hitler, would-be Mussolini, really has lost ground lately, as his recent activities have shown that he has the pretensions, but not the qualities, of his Italian prototype."

Throughout manhood we search frantically for something that isn't there; when old age comes, we mourn the lost opportunities that were just at hand.

A man is paid not for having brains but for using them.

POEMS THAT LIVE
A SONG
Ye happy swains, whose hearts
From Love's imperial chain,
Take warning, and be taught by me.

To avoid the enchanting pain:
Fatal the wolves to trembling flocks.
Fierce winds to blossoms prove,
To careless seamen, hidden rocks,
To hums quiet, love.

Fly the fair sex, if bliss you prize;
The snake's beneath the flower:
Who ever gazed on beauteous eyes.

That tasted quiet more?
How faithless is the lovers' joy!
How constant is their care
The kind with falsehood to destroy.
The cruel, with despair.

WHO'S WHO IN THE DAY'S NEWS

Dwight Morrow

Once more a member of the J. P. Morgan firm has been called in to help straighten out Europe's financial tangle. It is believed certain that Dwight Morrow, a Morgan man, will accept the chairmanship of the reparations commission which will put into effect the details of the Dawes reparations plan.

Dwight Whitney Morrow was born in Huntington, W. Virginia, January 11, 1873. He obtained his A. B. degree at Amherst in 1895 and four years later received his L. L. B. degree at Columbia.

He entered a New York law office (Simpson, Thatcher and Bartlett) that year and in 1905 was made a member of the firm. Since July, 1914, he has been with the J. P. Morgan Co.

During the war he served as advisor to the Allied Maritime Transport Council and was awarded the Distinguished Service Medal for "exceptionally meritorious and distinguished service in connection with military shipping matters and the military board of allied supply."

He has been interested in charitable and prison reform work.

It is only when the general good is sought that individual interests are secured.

ROMANIANS AND RUSSIANS SPLIT ON BESSARABIA

Balkans Are Alarmed Over End of Negotiations at Vienna

BULGARS MOST AFFECTED

SOPIA, May 1.—Interruption of negotiations between Rumania and Russia at Vienna for adjustment of the Bessarabia question is causing not a little anxiety throughout Southeastern Europe. Bulgaria is particularly interested, chiefly because there are approximately 200,000 Bulgars living in the province of Bessarabia. The Bulgarian element is strongly opposed to Rumanian rule and, in the event of a plebiscite, would support Russia. Other alien elements in Bessarabia, it is believed, also would prefer Russian rule to that of Rumania.

This attitude on the part of the Bulgars and other aliens, it is believed, is recognized by the Rumanian government and was a strong factor in influencing it to reject Russia's proposal to settle the question by referendum. It is understood, fears that a referendum in Bessarabia would establish a precedent of which Dobrouda would take advantage, and the population of Dobrouda is also largely Bulgar and opposed to Rumanian rule.

Outlook Critical. Throughout the Balkans the situation is considered critical, chiefly as a result of the bold declaration of the Moscow Government that it will never recognize Rumanian rule in Bessarabia. This renders Rumania's position all the more difficult, as, in addition to the Bessarabian situation, the Government is faced with serious anti-Semitic disturbances.

Rumania and Jugoslavia, owing to strong separatist movements within their borders, and the most unsettled nations in the Balkans. In Rumania more than two-thirds of the population is alien, and in Jugoslavia more than two-thirds of the population is inimical to the Belgrade Government. These countries, therefore, are anxious to maintain the Little Entente as a safeguard guaranteeing territory they acquired in post-war settlements.

In the event of a conflict between Russia and Rumania, it is believed that pressure from alien and other dissatisfied elements in her population would prevent Jugoslavia from giving effective aid to Rumania. Czechoslovakia also, it is considered certain, would refuse assistance to Rumania, which would leave only Poland as a possible ally. Poland's internal situation is regarded as such would be able to render substantial assistance to distant Rumania.

Rumania, therefore, would be without effective outside assistance should a state of war with Russia arise and would be practically surrounded by Russia, Hungary and Bulgaria—three enemy nations. The general belief in the Balkans is that any conflict between Rumania and Russia would be fraught with grave political and territorial changes in the Near East, and for this reason the situation involving Bessarabia is being watched with apprehension in all Balkan capitals.

Man Blind for Six Weeks Tells of "Rebirth" as Sight Returns

VICTOR ATWELL

Victor Atwell Says Phantoms of Fear That Dogged Him in Dark Days Were Put to Rest by First Glimpse of Daylight

NEW YORK, May 1.—"The blind man is a prisoner, a slave."

"He is afraid to move. He fears he might get in someone's way."

"Sight gives one the greatest wealth in the world."

"Now that I can see again I could go out and move stones with my strength."

"When I thought I was going to be blind I used to break out into a terrible perspiration and jump up from my bed every few minutes. I couldn't control myself."

"I prayed as I never prayed before. I think, prayer helped my recovery."

Victor Atwell blind for six weeks, sees again.

Having lost his sight for a while he now knows the value of it as no one can who has not suffered similarly.

Atwell, twenty-seven years of age, is a mechanical draftsman. His mother depends on him for support. She needs his good sight. So does his exacting profession.

When a slight cold six weeks ago developed to such an extent that Atwell's eyes were affected, and presently blinded, it was the greatest catastrophe that could have come upon the Atwell household.

"But I have found that there is no encouragement to be found in worrying. It is much more practical to hope, no matter how bad things seem."

"God knows what I would have done if I hadn't regained my eyesight—there would be hardly any thing to do but jump overboard, apparently."

"Have you seen Dr. Benham? He has done so much for me! And he never tried to raise any false hopes in me by promising that I could see again."

Adapted Self Quickly. Victor Atwell, eating his noon-day meal in Long Island College Hospital in Brooklyn, said that even during his weeks of blindness he was surprised at his own ability to handle his knife and fork without difficulty.

"I seemed to find the food on the plate and pick it up quite easily."

"It's strange how soon you make the best of a situation, isn't it? Immediately I could recognize people around me by their voices. When I heard voices, some

LOCAL BARBERS ENJOY BANQUET

Journey men barbers, members

their employers, held the first of a get-together meeting last night at Little Joe's restaurant. There were nearly fifty present and after eating their fill of good things smokes were passed around and the company adjourned to the room above where they talked things over until a late hour.

Charles Camp, local president, and Lee Rose, the secretary, made brief remarks, the former welcoming the meeting as being just what was needed to promote good feeling between employer and employee. He introduced John Hart, of Toledo, organizer for the Journey men Barbers International Union, and he gave an exceedingly interesting address. He called attention to the rapid growth of the organization, which was established in 1887 when a few men banded together and organized. They never dreamed that it would become the powerful organization it now is, with \$638,000 in the treasury, and a united organization that embraced all of the American continent and its American possessions. The past year, he said, it paid out \$400,000 in sick and funeral benefits, and it was looking forward to the members by raising the standard of their work and assisting them in securing better wages and the eight-hour day. He urged them to give service to their customers, to treat them courteously, and to so deport themselves that they would be considered an asset to the community in which they live.

A short talk was also made by Earnest Ledale, proprietor of the Elvira hotel barber shop, who said he was glad to be present and thought there should be more such meetings which promoted a better understanding between the workmen and their employers. He concluded by making some helpful suggestions that he believed would be beneficial to both sides.

BULLETINS. WASHINGTON, May 1.—A man who shows such ignorance of the constitution and the duties of citizenship should be starting to college rather than heading a great university, declared Walter B. Wheeler, generalissimo of the Anti-Saigon league, today in a scathing attack on Dr. Nicholas Murray Butler, president of Columbia University, who started the country a few days ago with a vehement criticism of prohibition.

NEW YORK, May 1.—Letters written by Philip Morgan Plant, heir to the \$15,000,000 estate of the late Commodore Morton S. Plant, Miss Helene Jesmer, former "Follies" beauty queen, were shown to plant in court today while the young man was testifying in his own behalf in Miss Jesmer's action to recover \$500,000 auto injury damages.

WASHINGTON, May 1.—A sensation was sprung before the Borah committee today when Wm. W. Rhea, Western oil man, charged Senator Burton K. Wheeler, Democrat of Montana, with promising to "fix up" an oil permit for a group of Montana law clients in an act which would violate federal statutes.

ESCAPES DAYTON JAIL. DAYTON, O., May 1.—N-rele Cleveland, late Jackson, Mich., escaped from the local jail, he was wanted here for the alleged theft of a purse containing \$50. He is also wanted in Michigan for jumping a parole, police say.

MURRAY IN PEN. ATLANTA, Ga., May 1.—Warren T. McCray, yesterday governor of Indiana arrived here at noon today and immediately was taken to the federal penitentiary where he will begin serving his ten year sentence for using the mails to defraud.

MISTAKEN IDENTITY. DEFIANCE, O., May 1.—A stranger in town the other day asked Silas Clark, Highland Township, if the Ku Klux Klan were to give a demonstration. He saw members of the graduating class of Defiance College in their black caps and gowns parading in Clinton Street according to the annual custom on Senior Day.

NEW YORK, May 1.—Beverly D. Harris, former New York Banker, today struck back at his beautiful young wife, Eleanor, Elaine Lee Harris, who yesterday made public a letter Harris was alleged to have written to "another woman" admitting he had slandered her.

CRIPPLED BY CORNS? Use "Gets-It"

World's Greatest Corn Remover

It's just wonderful how "Gets-It" ends corns and calluses. Put a few drops of "Gets-It" on a corn. No matter how long you've had corns, how bad they may be, whether hard or soft, if you have tried, believe this—"Gets-It" will end corns. "Gets-It" can lift the corn right off with the fingers. No more corns. Corns but a trifle and overdone. "Gets-It" is sold in this city by C. W. Phillips.—Advertisement.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrub, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenrub with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. All druggists can supply you.—Advertisement.

Injudicious eating causes acute indigestion, gas, acidity, heaviness, sour stomach—sometimes the tendency stomach causes that dreadful feeling of near suffocation.

Isn't it worth something to know of a remedy that will stop this distress in a few minutes—quicker than anything else you can think of.

This is no common stomach remedy for it took years of time to combine Pepsin with Menthol and the other effective agents that make Dare's Mentha-Pepsin so good that the worst cases of indigestion and gastritis and other chronic stomach ailments are speedily overcome and the most badly deranged stomachs are made clean, strong and healthy.

Mr. Calvin Dilks of Alloway, N. J., a man of few words, knows this for he writes: "I entirely rid myself of an old catarrhal condition of the stomach with Dare's Mentha-Pepsin."

LOGAN, O., May 1.—Ralph Woods, salesman for an Athens wholesale house, was held up in daylight on the New Straitsville Pike and robbed of about \$150 by two well-dressed motorists. One of them produced a gun and the other went through Woods' pockets.

PESKY BED-BUGS

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two thirds are females. They mature to adult size and are capable of laying in four weeks. How many bedbugs would you have in a year if you left one female or egg unmolested for one year?

To rid the pesky bedbugs, you really see how necessary it is to use a preparation that will kill the eggs as well as the live ones.

P. D. Q. has been demonstrated by the leading Hospitals, Hotels and Railroad companies that the safest and most economical way to stop future generations of bedbugs, roaches, moths and ants is to use

WATCHES SCARCE

ST. CLAIRSVILLE, O., May 1.—The absence of watches in Belmont County has become alarming, according to Auditor H. G. Finley. Tax returns show that

only about one man in fifteen has a pocket or wrist time piece. All are supposed to be returned for taxation.

8 AFTER COUNTY JOB

CADIZ, O., May 1.—Although the office of recorder of Harrison County pays only \$1100 a year, it is popular. Three candidates for the Republican nomination for the office are already announced.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily. Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.—Advertisement.

QUARTET ARE FINED

\$387 BY MAYOR GOTT

WELLINGTON, May 1.—Four men passing through this vicinity believe today that there is a great deal of truth in the saying, "Alcohol and gasoline do not mix." The party was arrested here late Tuesday night on route to Toledo. A search of the car revealed a bottle of wine and some cider, and Marshal Davidson locked them up for the night. Wednesday morning they were arraigned before Mayor Gott. The driver was ar- rested on the charge of carrying liquor and the other three on the charge of intoxication. They were fined \$387.49.

YOUR BLOOD

With organic iron—Nuxated Iron—It's like the iron in your blood and the iron in spinach, lentils and apples—will not blacken or injure the teeth nor upset the stomach. Entirely different from metallic iron. It quickly helps put strength into your muscles and color into your cheeks. Get your doctor to make your red blood count today, then take Nuxated Iron for a few weeks and watch your red blood corpuscles increase. Real blood becomes: how much stronger and better you feel; what a difference it makes in your nerves. Over 4,000,000 people annually are using Nuxated Iron. Your money will be refunded if you do not obtain satisfactory results. In tablet form only. At all druggists.

Vegetable Compound

Mart, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound to build me up as was all run- down, nervous and sick. I ached and hurt all over so that I was often compelled to go to bed, and I had to have most of my work done. No medicine seemed to help me until one of my neigh- bors who was tak- ing the Vegetable Compound insisted on me trying a bottle of it. The medi- cine helped me from the first, and the best of all is that I can even sew again without that awful, nervous feeling I was used to having. And I used to take crying spells, with such a blue feeling that I cannot explain. Now all that has left me. I feel so cheerful, and I have gained in weight, sleep well and eat hearty. Oh! I wish I had words to express what this medicine has done for me! I am a housekeeper and do every thing from the sewing to the washing now and it doesn't hurt me. You may use my letter in any way you wish. I will be glad to help any suffering woman to the road of health and happiness."— Mrs. B. F. BRANNON, 404 Travis Ave., Mart, Texas.

**Heals Sore Gums
Teeth Tighten**

You are forever reading about dozens of things that will prevent pyorrhea—but if you've got it, what you want to know is how to get rid of it.

Well, here's some good news for you.

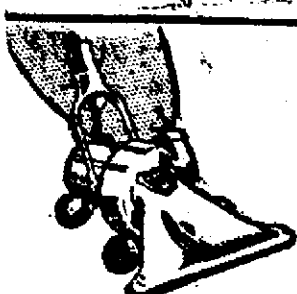

Get a six-ounce bottle of Jovex—use it as directed for just two minutes a day. After the fourth day watch those spongy gums harden and stop bleeding; notice those wobbly teeth tighten up. Then keep on until your gums are strong and healthy and teeth firmly in place. It's great stuff—not very pleasant—but it does end pyorrhea—it hasn't failed yet. Guaranteed by Phillips Drug store and druggists everywhere.—Advertisement.

ELECTRIC RAY CAN PARALYZE ARMY, CLAIM

**Grindell Matthews Tells
of Possibilities of His
Newest Invention**

CAN CONTROL ITS POWER

**Briton, in Interview,
Gives Details of His In-
visible "Ray of De-
struction"**

LONDON, May 1.—"My electric ray will sweep an army corps with sufficient power to put it out of action for half an hour without any ill effects to the men, or for a longer period if necessary, or to destroy life entirely."

That is the claim of Henry Grindell Matthews, British inventor of the invisible rays of destruction.

"My ray," continues Grindell Matthews, "can create an atmosphere in which nothing can exist, which will ignite everything inflammable or explosive and even with sufficient electrical energy, melt metal or even glass."

"It is an invisible power as destructive as a flash of lightning—a ray of light along which an electric current travels which is constant and controllable. My invention is purely a weapon of warfare, both from an offensive and defensive point of view."

Sees Possibilities
"Whether the future will prove that it will be possible to transmit power or electrical energy in such a way as to make it a commercial proposition, time alone will prove. But I certainly agree with Nikola Tesla, the greatest of all inventors of modern times, that it should be possible in the near future to transmit wireless power."

"With regard to the possibility of fighting aircraft, it is not so much a question of putting the magneto out of action as of the possibility of actually setting fire to the aeroplane, or of electrocuting the pilot. By regulating the power you could either 'knock out' the pilot for half an hour or kill him straightaway—which ever method one chose to adopt. Therefore it does not seem to be of much use for any power to build aeroplanes for warfare if they can be brought down by simply turning a searchlight upon them."

"In future air raids electric rays will sweep the skies instead of searchlights. This means that any aeroplane or Zeppelin coming within the barrage would be brought down much more effectively than by machine gun fire. For unless a machine gun is trained straight on the aircraft it will miss its objective, where as the electric ray that it can be turned on to a given square inch or be expanded over an area miles in extent."

"The whole apparatus can be carried on a motor-orry and is, therefore, mobile for the power can be drawn from a central station to any given point, just like broadcasting."

Given \$125,000
"It is now only a question of power as to the distance at which the discovery can be operated, for the principle has been absolutely established. The matter of distance, just as happened in wireless telegraphy, will come from further experimental work."

"It is my intention to give the first option of purchasing my invention to my own country—Britain. But while it is essentially a war weapon, at the same time it can be made a weapon of peace, inasmuch as if expectations are realized, war will become unthinkable, as a power that had warlike intentions would hesitate before embarking on war with a country whose strength in 'invisible' armament was unknown."

Grindell Matthews, at the conclusion of the war, was granted \$25,000 by the British Government in return for his invention for the wireless steering of ships. He has expended all this amount in his present researches.
